Fish-Cleaning Station is Fully Functional

No Fishing INSIDE the harbor WHERE BOATS ARE IN SLIPS

Boat Launch Features Sharp Initial Descent, then long Shallow Descent, High Concrete Walls, NO HANDRAILS from top of Concrete (yet). Launching requires 2 people to be efficient.

Docks 1 and 8 are not installed due to NYSDEC Rejection for Permit, was due to fish spawning at time of install (Dock Delivery was late for these 2 docks).

**Slip renters are required to maintain liability insurance for the term of the contract. For vessels 25' and under the insurance is \$100,000 for liability, for vessels 26' and larger Safe Harbor requires \$300,000 in liability. We also require salvage coverage of a reasonable amount to raise the vessel if it should sink in the harbor. The recommended amount for salvage coverage is at least \$250.00 per foot, length of the vessel (i.e. 20 ft. = \$5000.00 salvage insurance). We also require Safe Harbor Marina listed as additionally insured, in order that we are notified in case of a lapse in insurance coverage.
